BRITISH SOCIAL ATTITUDES 2021 DOCUMENTATION OF THE UI QUESTIONNAIRE

Notes:

1. This is a documentation of the UI program. Not all variables that appear here are on the SPSS file. (Those that are not are marked with a '\$').
2. Unless otherwise specified, 'Don't Know' is code 8 for single column questions, code 98 for two column questions, and so on.
3. Unless otherwise specified, 'Prefer not to answer' is code 9 for single column questions, code 99 for two column questions, and so on.
4. In general, 'don't know' and 'Prefer not to answer' answer options were only presented to the respondent if they attempted to skip the question without providing an answer. Some questions had other "hidden" answer options that were displayed if a respondent attempted to skip the question. These are shown in the documentation in parentheses e.g. (Don't know)
5. Sections in brackets and italics were textfilled as appropriate.
6. Routing instructions appear above the questions. A routing instruction should be considered to stay in force until the next routing instruction.
7. A small number of interviews were conducted via telephone. The CATI script contained instructions for the telephone interviewer. Due to the low number of telephone interviews, only the web version of the script is shown in this documentation.
8. Expandable help screens were used to provide extra information at certain questions. These are shown in the documentation as '[HELP SCREEN]'. The text in the helpscreen was made visible to respondents if they clicked on the help button.
9. Collapsible grids have been used to present questions with repeating responses, these collapse the existing statement once a response is provided. These are shown as '[COLLAPSIBLE GRID]' in the documentation.
10. '(NOT ON SCREEN)' means that the question did not appear on screen.
11. '(EDIT ONLY)' means that this answer option was created from coding the answer provided in the "other (please say what)" category. It was not presented to the respondent on screen.

Introduction

ASK ALL (Versions 1-12)

[Intro1]

Welcome to the BSA 2021 survey.

We would like to ask for your views on some current topics about life in Britain today.

Even if you do not feel sure, we still value your opinion, but please answer as honestly as you can. Once you have finished the survey, we'll send you a **£10** Love2Shop voucher as a thank you for your time.

The survey should take you around 25 minutes to complete, but this may be a little longer or shorter depending on your circumstances. {IF WEB: You don't have to complete the whole survey in one go – any progress you make will be saved and you can start where you left off when you next log in.

To get started, simply click the 'Next' button below.}

ASK ALL (Versions 1-12)

{If Tel: Before we move on to our next question, I just wanted to provide some explanation about/as to why we ask this. We ask this question on sex to make sure our study is representative of the population. To do this we use population estimates such as those from the Census, so we ask questions on sex and gender in a similar way to the 2021 Census for this reason.

This information can also help our data users such as charities, organisations, and local and central government to understand differences in opinions.

If you are considering how to answer, use the sex recorded on your birth certificate or Gender Recognition Certificate.

A voluntary question on gender identity will follow this question. This asks if the gender you identify with is different from your sex registered at birth. If it is different, you can then record your gender identity.}

Recruitment

ASK ALL (Versions 1-12) **[ConsPan3]**

Thank you for contributing to this important piece of research.

We would like to contact you again in the future to invite you to take part in short surveys. By doing so you can represent the opinions and experiences of people like you on important issues that affect us all.

If you agree, you may be invited to take part in short surveys, normally online or over the phone. They will typically last 15 minutes, and we will normally be able to give you a £5 voucher to thank you for your time.

They will take place every couple of months or so and you can decide at the time whether or not you want to take part.

Would it be okay for us to contact you as part of this research?

1. Yes – I would like to be given the option to take part in the future
2. No – I would not like to be invited to take part
3. I'm not sure – I would like more information

{ConsPan3 = 3} (Versions 1-12) **ConsPan3Info**

{WEB: "Please click on the links below for some more information about the study."; TEL: "Do you have any questions about this research I can help with?"}

[HELP SMALL IN GREEN TEXT]: Why is it important I take part?

This study will collect information on the experiences and opinions of thousands of people across Britain. This will be used by government, charities and academics to help them make the right decisions.

It is vital that we get the views of people from all different parts of the country, from different backgrounds, and in different circumstances. That is why it is important that you take part –by giving your perspective you will help to make sure the views and experiences of people like you are represented.

[HELP SMALL IN GREEN TEXT]: What will taking part involve?

You will be invited to take part in short questionnaires lasting around 15 minutes every couple of months or so. We will ask you questions on a range of topics, from housing and education, to health and happiness, or government policy and the environment.

[HELP SMALL IN GREEN TEXT]: Do I have to take part in every survey?

Taking part is your choice. If you would rather not take part in one of our surveys, you can ignore our messages or let us know. If you want to stop taking part you can simply let us know and we will update your records.

[HELP SMALL IN GREEN TEXT]: Will I receive a voucher for taking part?

Each invitation will explain what you will receive for taking part. You will receive a shopping voucher as a thank you for taking part in most questionnaires.

[HELP SMALL IN GREEN TEXT]: What will you do with the information I give?

As with BSA, the information you give will be used for research purposes only and held securely in accordance with current data protection legislation. Most of the results will appear as statistics and we will not identify your individual opinion without seeking your permission. Sometimes we will analyse your answers together with answers you gave to previous questionnaires to help us to understand things like how people's views are changing over time.

Would it be okay for us to contact you as part of this research?

1. Yes – I would like to be given the option to take part in the future
2. No – I would not like to be invited to take part
3. I'm still not sure

{ConsPan3Info = 3} (Versions 1-12)

[ConsPan3Unsure]
